

NAMASTE SPA

NAMASTE SPA GRAND OPENING

A brand new downtown spa officially opened its doors on Friday, November 13th. The whole Namaste Spa team was on hand to greet clients and guests.

At Namaste Spa, we use a very simple method to insure your welfare by offering you what you need to relax and feel revitalized.

Namaste Spa's goal is to take care of you and help you find your true self. You will leave the spa feeling like your body has been renewed with a serene soul. You will then be able to take care of everything that is important to you: your relationships, your work, your health and your dreams.

Namaste Spa carries the line of Yonka products for face and body care. Yonka products are made of essential oils with plant extracts. A Yonka treatment is like taking a trip to a place of harmony, balance and fullness. Yonka treatments will take you on a wonderful journey full of softness, fragrances and sensations. The Yonka name rimes with excellence since the 1950s. Also available: the Charme d'Orient product line for certain body treatments

Available services: In addition to basic beauty treatments, Namaste Spa offers different body care treatments, for example: the water massage (Vichy), scrubs and body wraps. Among the types of massages, why not try the Ayurvedique, a head massage (with hot oil) which promises to help relax, boost concentration, help you sleep better and improve the condition of your scalp and hair.

Namaste Spa is proud to offer spa treatments created for kids. Namaste Spa is the first in New Brunswick to use the Gom-Mee product line that caters specially to children. With the Com-Mee concept, parents will be able to introduce the whole family to body and health care. The Gom-Mee treatment for kids is approximately a one hour treatment. It is the perfect way to initiate children to spa treatments. Your children will love this new and exciting experience, specially the wonderful scent of "Bubble Gum" found in the Gom-Mee products.

Finally, no spa experience would be complete without a delicious cup of hot tea. Choose from a very wide range of flavors from all around the world.
